ARMOURBOARD
THE UNIQUE SOLUTION

ARMOUR BOARD

COVERAGE 158mm
LENGTH 5.84m

Designed and manufactured in Australia, our products suit both traditional and contemporary house exteriors. Our cladding has been subjected to the rigorous physical test requirements of AS/NZS 4257.1, .6, .7, and .8 and has passed with ease. ARMOURBOARD has a unique profile – its design provides for a vinyl thickness of 6 mm. This board has been developed here in Australia to suit Australian homes.

Our products are formulated with careful attention to the UV conditions of the harsh Australian climate. The extrusion processes we have developed ensure that the colour and UV resistance are consistent all the way through each product – not just limited to the surface. These features, presented with clean glossy lines and embossed wood-grain surfaces, bring you products that deliver years of effective and stylish good looks with minimal upkeep.

We provide a factory warranty on all products, copy available on request. This warranty gives full (not pro rata) protection for ten years.

COUNT YOUR SAVINGS FOR YEARS TO COME

ARMOURBOARD

ARMOURBOARD is a unique wall cladding with fresh and graceful lines. The extra thickness of this product delivers a great degree of strength and durability. Like all our claddings, this product comes with a complete suite of trims to complement the finished walls. Whether used for enhancing new work or upgrading existing homes, the results are long-lasting and eye-catching.

Our cladding is lightweight and most installations take just a few days with minimum disruption.

Maintenance is not demanding – a quick wash down from time to time will keep the appearance fresh and attractive. A mild detergent can be used – refer to our care guide for complete information.

UNIQUE THICKNESS

ARMOURBOARD has a designed thickness of 6 mm of solid vinyl for added strength and durability.

AUSTRALIAN MADE

Designed and manufactured in Australia for Australian conditions.

DISTINCTIVE PROFILE

No product matches the graceful lines of this unique cladding.

GLOSS TIMBER LOOK

A low maintenance product that can keep its eye-catching looks for years to come.

UV RESISTANT

Careful design and blending of components ensures all-through UV resistance.

TESTED TO AS/NZS 4256.4

ARMOURBOARD meets all the physical tests of these standards.
